

Even more South Glengarry Residents Can Now Benefit From Enhanced Bell High Speed Internet

Lancaster, Ontario – May 9th, 2008 – The township of South Lancaster and Bell today announced yet another significant upgrade to the town's internet service in the area of **Green Valley**. Sympatico Total Internet solution from Bell will be available beginning May 9, 2008.

Bell and the municipality have teamed to significantly expand the existing DSL footprint through the Rural Connections program, a government initiative to speed broadband expansion into rural areas of Ontario.

May 9th, 2008 will mark the completion of the fifth new cabinet which will significantly increase the reach of Bell high speed Internet service in South Glengarry.

Bell is leveraging its existing technology and expanding Digital Subscriber Line (DSL) Internet service, which will provide high speed internet connectivity without disruption to your phone service. This type of Internet service from Bell utilizes existing phone lines and jacks, enabling a quick and easy plug and play setup.

Interested parties are encouraged to visit the **Bell Central Office, 7 Oak St., Lancaster on Friday, May 9th from 9a-4p** for more information or to subscribe to the service, pick up a high speed package and/or arrange for installation. Bell has also set up a hotline available from 9a-4p on May 9th, 2008 for residents in the area of Green Valley who are unable to visit the Central Office. These customers are encouraged to call **613-347-5000 or 613-347-5001** to speak with a local Bell representative to determine your eligibility for high speed Internet
