

## Enbridge Pipelines Inc. to conduct spill response training exercise Thursday September 24

Enbridge response crews from Montreal and Belleville will be on the Raisin River in the vicinity of Raisin River Marine this Thursday (Sept 24) to conduct water-based spill response training. The exercise is scheduled between 08:30 AM and 13:00 PM. Enbridge crews will be deploying boom to practice spill containment and collection tactics.

In alignment with current provincial pandemic restrictions on group gatherings, there will be fewer than ten participants involved.

At Enbridge, **safety is our highest priority.** Emergency response is just one aspect of our comprehensive pipeline safety and maintenance program, which includes multiple layers of protection. And with a workforce of more

than 11,000 across North America, Enbridge's employees play a vital role in pipeline safety and emergency response.
