

South Glengarry Fire Services Recertified for Tanker Shuttle Accreditation

Lancaster, Ontario, Aug 31, 2020 – The Township of South Glengarry is pleased to announce that the South Glengarry Fire Service’s Tanker Shuttle Accreditation has been renewed in both the commercial and residential categories.

In order to receive this accreditation, a fire department must complete tests to show that it can continuously provide water supplies in excess of the minimum requirements. Receiving the Tanker Shuttle Accreditation means that the South Glengarry Fire Services has demonstrated the ability to transport water to rural fire scenes to protect our community.

Flow rates achieved - 2920 Litres per minute (642 I.G.P.M)
Accreditation valid for residential dwellings within 8kms and Commercial properties within 5kms of a Fire Station.

“This recertification confirms the level of service available to our residents and business owners. The South Glengarry Fire Service is pleased to have received this accreditation as an example of our commitment to providing excellent fire prevention and protection.” Dave Robertson, Fire Chief

Additionally, the accreditation provides potential financial benefits to residents and businesses in the Township. Homes and businesses in our municipality may be eligible for a reduction in insurance premiums as a result of the accreditation. Residents should contact their insurance agency directly to ask if they qualify for a rate reduction.

For more information, please contact Dave Robertson, Township of South Glengarry Fire Chief, at 613-577-9663 or [drobertson@southglengarry.com](mailto:d Robertson@southglengarry.com)
