NEW WEBSITE. SAME ADDRESS.

Our website just got a fresh update - same URL address, same community, brand new experience. We've made it easier to find what you need, whether you're looking for local information, services, recreation programming, or business resources. Take a look around and let us know what you think!

Check out our **NEW** website at
www.southglengarry.com

CLERK'S CORNER

COMMISSIONER OF OATHS

The Township provides Commissioner of Oath services for documents requiring an official oath, affirmation, or declaration. This includes documents such as vehicle transfers, insurance claims, foreign pension forms, and immunization exemptions - though we reserve the right to refuse certain documents. Signatures must be made in the presence of the Commissioner, and valid photo ID is required. Services are available at the Municipal Office during business hours by walk-in or appointment. **Note:** Notary Public services are not offered.

RECOGNITIONS

The Township of South Glengarry's Resident Recognition Program celebrates community members for their dedication and achievements. Residents can request a certificate of recognition from the Mayor for milestone birthdays (75+), anniversaries (50+ years), retirements, business achievements, school events, and MORE!

Requests are accepted year-round. Certificates can be mailed or picked up.

For details, please contact 613-347-1166, ext. 2104, or email clerk@southglengarry.com.

THE FRIENDS OF THE SUMMERSTOWN TRAILS

WHO ARE THE FRIENDS OF THE SUMMERSTOWN TRAILS?

The Friends of the Summerstown Trails (FOTST) is a vibrant, community service organization of 17 years in existence. We are not a sports club, nor a social club, we basically exist to offer various fitness and leisure opportunities to the community.

We are an incorporated, volunteer, not-for-profit organization whose mission is to maintain the 30 km of trails in the Summerstown Forest and offer programs and events to the community. To achieve this, we have over 350 members and, every year, around 80 of them provide volunteer hours to help us do all that we do for the community. Since Covid, more than 23,000 to 25,000 visits are registered yearly.

WHAT CAN VISITORS EXPECT AT THE SUMMERSTOWN TRAILS?

In **winter**, visitors can enjoy groomed trails for cross-country skiing, snowshoeing, fat biking, and walking. The trails are well maintained, and weekend equipment rentals make it easy for everyone to take part — no experience or membership required. Special events like our Family Day event, ski races, and school outings add to the vibrant seasonal atmosphere.

In **non-winter** months, the trails are just as inviting, offering a peaceful natural setting for walking, biking, and Nordic walking programs. Spring brings a spectacular Trillium bloom, while fall offers colourful foliage and crisp hiking weather. Events like a high school cross-country meet and a fat bike food drive also keep the trails active year-round.

ARE THERE ANY FEES, MEMBERSHIPS, OR EQUIPMENT RENTALS REQUIRED TO ACCESS THE TRAILS?

The trails are situated on public lands, and as such there is no cost to access the trails year-round— no fees, permits, or memberships are required to enjoy the trails. For those who need gear, weekend equipment rentals (including cross-country skis, snowshoes, and fat bikes) are available during the winter season for a small fee. While not required, memberships can help support trail maintenance and programming.

ARE VOLUNTEERS OR DONATIONS NEEDED - AND IF SO, HOW CAN PEOPLE GET INVOLVED OR CONTRIBUTE?

We are always looking for new volunteers and donations. Those wishing to volunteer can do so by sending an email to summerstowntrails@gmail.com or through our website at www.summerstowntrails.com. Those wishing to donate can do so at the trails when they visit or through our website. But the best way to support what we do is by becoming a member, thus contributing on a yearly basis.

TELL US MORE ABOUT THE SCHOOL PROGRAM.

On any given day (mostly mornings), a school bus will roll in the parking lot with anywhere between 40 and 50 grade 4 to 8 students and their teachers. Our volunteers (we usually have 6-8) are ready. Usually, half the group skis and the other half snowshoe. Our volunteers help them putting on the equipment that we provide and then will lead them in small groups on the trails for 60-90 minutes depending on weather and age. Back at the parking lot, we give them a cup of hot chocolate, and then off they go back to school for lunch. What a great morning for all!

SINCE THE TRAILS ARE SITUATED ON PUBLIC LANDS, DO YOU NEED PERMISSION TO OPERATE?

Yes, we do. The United Counties of SDG own most of the forest where the trails are located; a small section to the west is owned by the Ministry of Natural Resources. We have a memorandum of understanding (MOU) with SDG and the Township which outlines the responsibilities of each and lists the activities and programs we are allowed to do.

OUTSIDE OF WINTER, WHAT ARE THE BEST TIMES TO VISIT THE TRAILS?

In the spring, there is the Trillium bloom; it occurs in May, and lasts approximately ten days (dates vary each year depending on the weather). In many sections of the forest, the Trillium literally carpet the forest floor. It's quite spectacular. And you don't have to walk far: just 300-400 m from the parking lot and you start to see them.

And of course, after summer, there are the beautiful fall colours which last a fair number of weeks.

FINALLY, WHAT'S ONE THING YOU WISH MORE PEOPLE KNEW ABOUT THE TRAILS?

That we are a volunteer organization that provides access to the trails, and the parking lot, for free all year-round.

Not a job, a career

Imagine going to work with a smile on your face, getting treated like family, and being handsomely rewarded for proudly helping others. If that sounds like your kind of job, then we are your kind of company. Because at Hood Packaging, we also mold long, rewarding careers.

Growth in Action – 2024 Building Stats

How building permits and inspections helped shape our community last year

In 2024, our community continued to grow, and our Building Department was busy helping make it happen. From new homes and local businesses, to renovations and safety upgrades, every building permit represents an investment in where we live. Behind the scenes, our team worked hard to review applications, issue permits, and complete hundreds of inspections to make sure each project met safety and quality standards. These numbers show just how much we accomplished together last year.

**287
PERMITS
ISSUED**

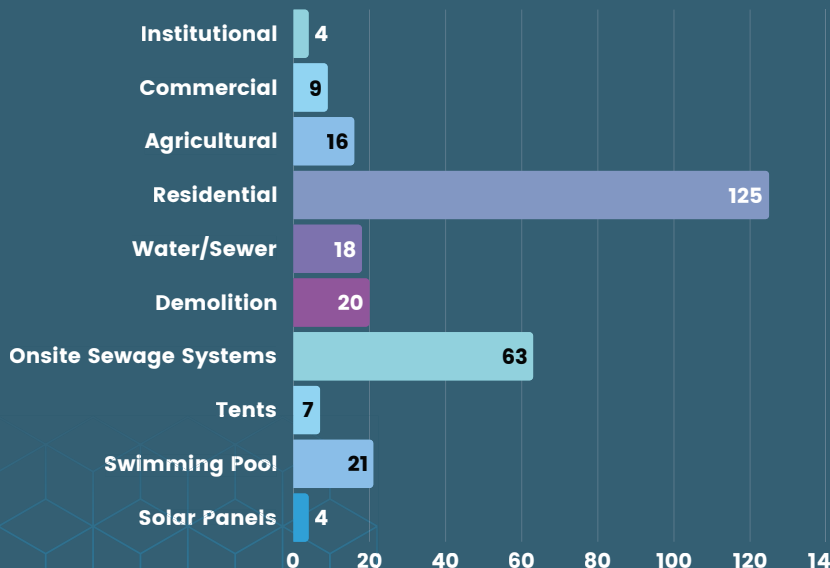

**\$74,638,991
ESTIMATED
CONSTRUCTION
VALUE**

**60–100
INSPECTIONS
PER MONTH**

Types of Permits Issued

Considering a building project?

Be sure to consult with our knowledgeable Building Department staff prior to beginning a construction or renovation project.

Ontario's Not-for-Profit Home Warranty Program

Tarion & the Ontario New Home Warranties Act and Regulations By law, all new homes built in Ontario are provided with a warranty by the builder if the builder undertakes the performance of all the work and supply of all the materials necessary to construct a completed home whether for the purpose of sale by themselves or under a contract with a vendor or owner. This law is called the Ontario New Home Warranties Act & Regulations. Tarion's role is to ensure that purchasers of new homes receive the coverage they are entitled to under their builder's warranty.

If you are acting as your own general contractor (i.e., you are personally hiring and paying each of the various construction trades) and you intend to live in the home after construction, then your home may not be required to be covered by warranty under the Ontario New Home Warranties Plan Act. To learn more about whether the warranty is required, please contact the Home Construction Regulatory Authority (www.hcraontario.ca).

What it is the warranty under the Ontario New Home Warranties Plan Act?

Coverage includes financial protection before you take possession and protection against construction defects after you take possession

How does the warranty work?

A new home built by a Home Construction Regulatory Authority (HCRA) licensed builder/vendor is eligible if it meets four criteria under the ONHWP Act (there must be a "home", "vendor", "builder", and "owner"; each of these are defined on the HCRA Website). The coverage begins when you sign the Agreement of Purchase & Sale and remains in effect for up to 7 years even if the home is sold. Each warranty comes with certain limits and obligations on you as a home buyer and owner, as well as your vendor/builder.

Who provides the warranty?

The vendor or builder pays the warranty enrolment fee to Tarion as a term and condition of an Enrolment Confirmation.

Effective February 1, 2021, Tarion's previous licensing responsibilities have been transitioned to the Home Construction Regulatory Authority. The HCRA is now responsible for regulating new home builders and vendors in the province. To learn more about the HCRA, visit www.hcraontario.ca.

For more information about Tarion & the Ontario New Home Warranties Act and Regulations, please visit <https://www.tarion.com/>.

Please note, a completed Tarion Declaration Form is required a building permit application for a new single-family dwelling.

LANDFILL UPDATES!

EXCITING NEWS!

We're excited to announce that our Township Landfills are now equipped with Point-of-Sale (POS) terminals. Residents can now pay with debit and credit, in addition to cash.

NEW! BY-LAW 2025-28

A new Solid Waste Management By-Law for the Township of South Glengarry has come into effect, this means...

- **Residential** and **Agricultural** materials will only be accepted if transported by a dump trailer that is **5 cubic meters or smaller**.
- To help preserve the lifespan of the landfill, **Industrial, Commercial, and Institutional (IC&I)** waste will **no longer** be accepted.

REMINDER:

The Township cannot accept waste generated outside of South Glengarry. Any waste from outside the Township will be refused.

**Thank you
and we appreciate
your cooperation as
we implement these
changes!**

Discover South Glengarry's Community Profile Tool

ABOUT THE TOOL

Our Community Profile Tool (available at southglengarry.com) provides the most up-to-date local data from reliable government and industry sources.

Each chart or graph includes a menu (three dots in the corner) where you can:

- View the source of the data, when it was published, and the period it covers
- Download and save the graphic as an image for reports or business planning

The menu on the left lets you quickly switch between different types of information, including:

- Economic data
- Resident demographics
- Households & dwellings
- Workforce characteristics
- Livability indicators

This makes it easy for business owners, investors, and residents to explore and download the latest community stats — all in one place.

SEE THE DATA IN ACTION >>>>

SHARED RESPONSIBILITY-TREE

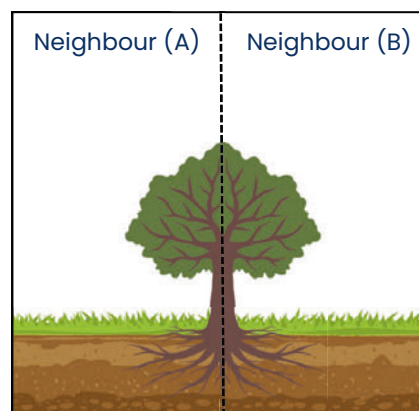

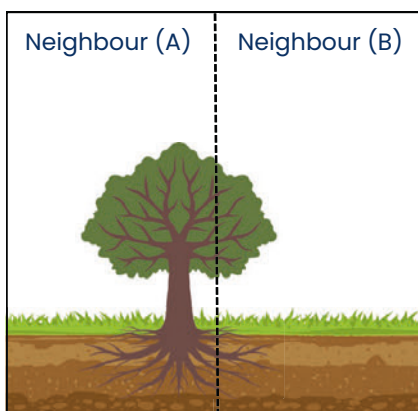

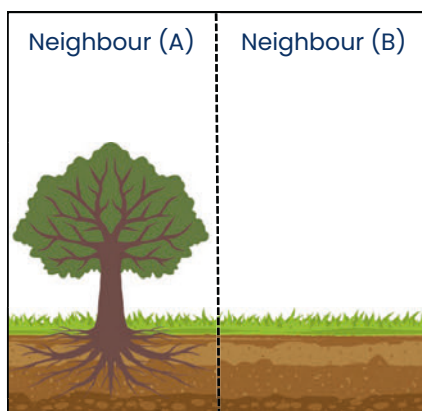

In Ontario, boundary trees are considered co-owned property and fall under the legal provisions of the **Ontario Forestry Act R.S.O. 1990**. The Forestry Act indicates that it is a **prosecutable offense** for one co-owner to injure or cut down a boundary tree **without** the other co-owner's permission.

It is important to note that **"boundary trees"** differ from **"shared"** trees, where a portion of the root structure or the canopy of a tree **may cross the boundary** between adjoining lands. The **roots and the canopy** portions of a tree are **not protected** by the Forestry Act in the same way that the trunk of a boundary tree is. It is the **responsibility of a property owner** to discuss with their neighbours the **potential impacts** to **both** shared trees and boundary trees that may arise from activities on their property. Should such trees be injured to the point of instability or death, the **developer or property owner** may be **held responsible** through civil action.

WINTER CONTROL

WINTER MAINTENANCE

From **November 1st to April 15th**, Township of South Glengarry employees patrol, plow, sand, and salt roads and sidewalks. If winter conditions extend outside of the dates noted above. Township employees **will still respond** as required.

SNOW & ICE DEPOSIT

Blowing of snow and/or pushing snow across roads and streets is a **safety hazard**, and against the law. Please do not blow snow or push snow across roads, streets, and sidewalks. It creates **unnecessary hazards** to the travelling public in South Glengarry.

WINTER PLOWING

The Township of South Glengarry maintains approximately **390km** of roads during winter operations. Our Roads Department monitors weather reports throughout the winter to dispatch snowplows as needed to prevent and treat icy roadways, and to respond to snowfall accumulation based on the **depth of snow** and **class of road**.

Class 3 & 4

Crews dispatched within 12-16h of 8cm of snowfall

Class 5

Crews dispatched within 24h of 10cm of snowfall

Class 6

No standards

It's important to watch out for our snow plows when their lights are flashing and they are spreading out materials or removing snow!

MAILBOXES

Mailboxes that are **older, less sturdy, or not securely mounted** may be damaged by snow from passing plows, and the Township is not responsible for such damage. If the Township Roads Department determines that a plow vehicle made **direct contact**, the mailbox will be repaired or replaced with a standard Canada Post metal mailbox on a wooden post. **All** repair or replacement decisions are at the Township's discretion.

PARKING

As winter approaches, please be considerate when parking to help ensure **safe and efficient** snow removal/salting. Please leave enough space for plows to maneuver, especially during/after heavy snowfall and avoid parking where it may **block or impede** our snow-clearing efforts. Let's work together to keep our community **safe & accessible!** Thank you!

PAPER

IT'S A TOILET, **NOT A TRASH CAN!**

...where does it go?

Treating water from the St. Lawrence River is much simpler than purifying community wastewater to a standard that allows it to be safely reintroduced to the river. Flushing harmful items down your toilets and drains can disrupt this complex and costly process, making it more challenging for our dedicated plant workers to manage and eliminate harmful bacteria, before it re-enters the St. Lawrence River.

Did You Know?

Despite being marketed as "flushable," products like baby wipes and facial tissues often contribute to significant plumbing issues and sewer system damage

Cotton Balls or Swabs

Bandages

Feminine Hygiene Products

Cooking Oil, Fat, or Grease

Plastics

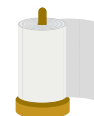

Hair

"Flushable" Items

Candy/Food Wrappers

Paper Towels

Medications

HEAT your HOME SAFELY

As temperatures drop, staying warm is essential—but so is staying safe. Heating equipment is one of the leading causes of home fires during colder months. Here are some tips to keep your home cozy and fire-safe this winter.

SPACE HEATERS

- Keep a 3-foot zone around heaters
- Plug it directly into the wall, no power bars
- Turn it off before you leave the house

FIREPLACES

- Burn dry, seasoned wood only, no trash or recycling
- Have chimneys cleaned annually
- Use a fireplace screen to catch sparks

FURNACES

- Have your system inspected and serviced
- Change furnace filters regularly
- Keep air vents clear of curtains and clutter

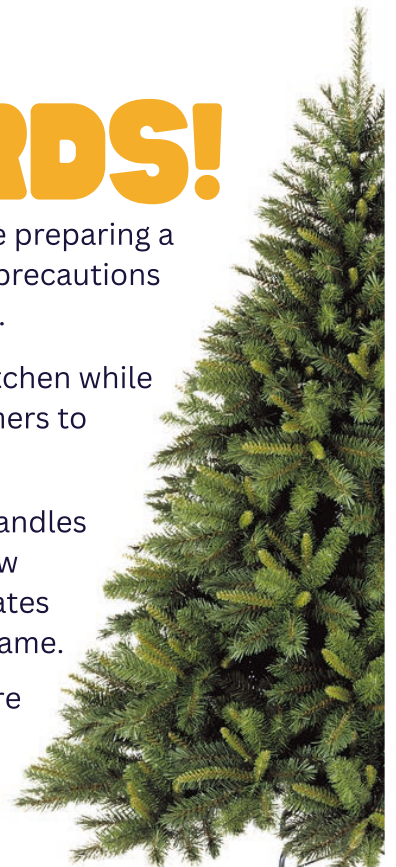

Holiday HAZARDS!

The holidays should sparkle with joy - not fire hazards. Whether you're preparing a festive feast, lighting candles, or decorating your home, a few simple precautions can help you avoid common fire risks and keep your celebrations safe.

Cooking is the leading cause of holiday home fires. Never leave the kitchen while cooking and keep it cleared - move flammable items away, and use timers to avoid forgetting food while entertaining

Candles are cozy, but can easily cause fires if left unattended. Keep candles on a sturdy surface, away from children, and always remember to blow them out before you leave. Alternatively, Fire Chief Robertson advocates for battery-powered candles, which bring the same glow, minus the flame.

Festive decorations can be pose serious fire risks. Inspect lights before you plug them in and dispose of strands with frayed wires or broken bulbs. Be sure to turn off all lights and decorations before going to bed or leaving the house.

BE SEEN, BE SAVED

EVERY SECOND COUNTS

Snowbanks, frost and early sunsets can make your house number disappear - and that can slow down emergency responders when you need them most. Fire, ambulance, and police can't help you if they can't find you!

This Winter, make sure to remove any snow obstructing your civic address number. Please ensure that your civic address is visible, attached to the front of your home if you reside in a village, or located on a civic address post to the side of your driveway.

Time spent looking for the correct civic address can now be spent helping you and your loved ones.
